Meet our SP-ACE Member, Kylie Torres

Age: 18

How long have you been in the SP-ACE Club: Since the beginning

How did you hear about the club: From my uncle's friend (Eric Vanoni, creator of the club)

Why did you want to be involved: I've always loved working on cars and stuff like that and thought working on planes would be cool, too.

What career would you like to have one day: an AMP/airplane mechanic

What has been the most memorable thing you've learned/done in SP-ACE: Helping actually work on the Ercoupe (hands on learning/experiencing vs. just learning from a book)

Anything else: I think this program is great for people around my age looking to see if they are interested in any part of aviation

I've always loved working on cars...and thought working on planes would be cool, too.

Kylie is not only a valuable member of our SP-ACE Club, she also is an amazing volunteer at the Aviation Museum of Santa Paula. She volunteers her time at each First Sunday, usually working alongside her mom. No task is too large or small for her to complete. Her positive attitude and willingness to help is what makes Kylie such a great volunteer.

To learn more about the SP-ACE Club or how you can volunteer, please contact us! We're always happy to answer any questions you may have.
